

Virtual Enterprise 1: Creating an Online Business

COURSE OUTLINE - UC

DESCRIPTION:

Virtual Enterprise 1 provides a background in business concepts including the role of entrepreneurial businesses in the United States and their impact on the local, regional, national, and global economy. Students will evaluate the skills and commitment necessary to successfully create and operate an online business venture by assessing the current economic, social, and political climates for entrepreneurial ideas, evaluating business concepts, and writing business plans for online ventures. By the end of the course, students will assess the strengths and weaknesses of their online business concept, collect, and organize market research data into a marketing plan, and prepare the financial analysis for their online business venture. Activities in this course include work-based learning that connects students to industry and the local community.
